English ◆◆◆◆◇

PROFILE

Hi i'm Mischa and i'm currently working on my MBO Software Development education at Curio in Breda.

I have experience in a handful of languages from school and personal projects, i'm most confident in C# and frameworks centered around C#.

Outside of school i also like to work on learning other languages from time to time, lately i have been trying to get into Zig and its been fun working on it.

WORK EXPERIENCE

Intern Software Developer

Veko Lightsytems   2024

- Working on an app with Blazor, this app uses a front-end using Web Assembly and a back end with an API using c#
- Working on general IT tasks such as helping people with tech related problems and setting up workspaces

Student IT Support

Student aan huis   2023-2024

- Helping various clients with tech support at their home
- A range of tasks from helping people set up new pc's to trying to get rid of viruses

Orderpicker

Monta   2023

- Assembling orders from a warehouse for shipment
- Helping with other task around the warehouse such as cleaning and getting items ready to be collected by other order pickers
